

## PORSCHE (2011, 2012, 2017)

AlphaPlan has a particularly good relationship with Porsche, having completed **three contracts**, most recently in 2017.

The automotive manufacturing industry relies heavily on the supply of parts and spares for **fast and non-stop manufacture** of its new models. At AlphaPlan we have ensured the floors within its VNA warehouses allow the material handling equipment to operate at **full speed and height**. We have worked hard to maintain the relationship we have with Porsche.

AlphaPlan keeps the automotive industry moving ... and fast.
