

VLS GROUP (2012 and 2017)

AlphaPlan has become the **preferred contractor** for VLS in ensuring its VNA warehouses have very high tolerance floors.

Distribution relies heavily on delivering products **in time and in very good condition.**

VLS know what they need and fully understand investment for the future of its global company. Having completed a number of successful contracts for VLS we continue to build on this relationship, now and for the future. AlphaPlan.....Planning for the future.
